17-20 November 2025, Dusit Thani Mactan Resort, Cebu, Philippines

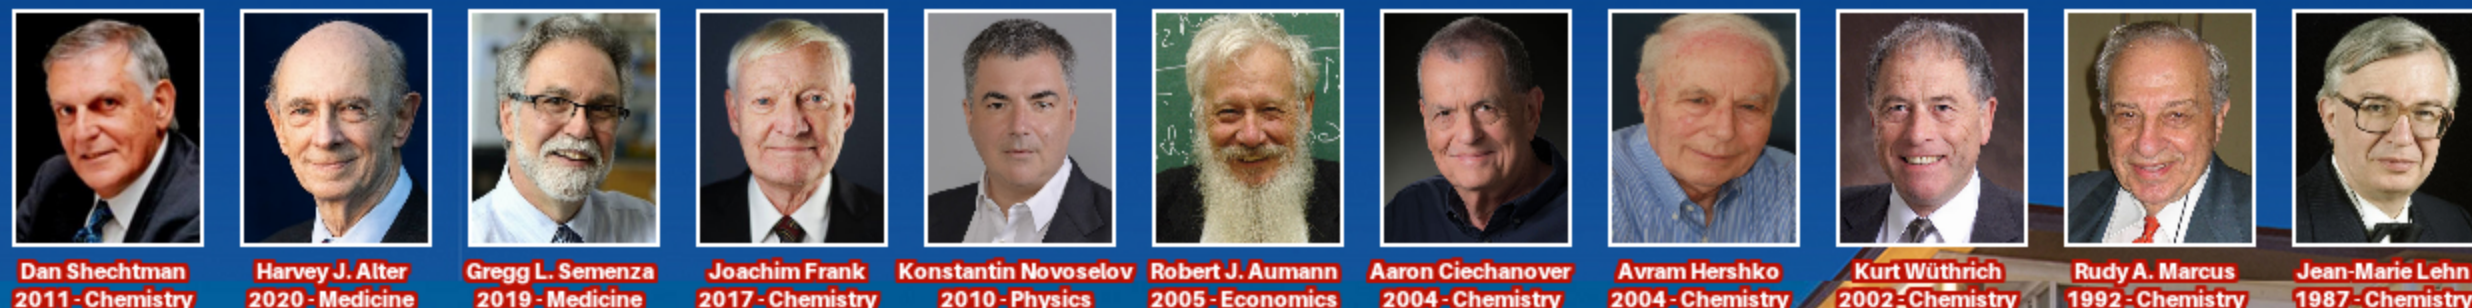

8th International Symposium on Sustainable Carbon and Biocoke and their Industrial Application

The Symposium is being held under the umbrella of SIPS 2025 covering the following topics:

- Reducing the CO₂ discharge in atmosphere from combustion processes
- New revolutionary combustion methods; chemically washing minerals/impurities
- Gasification; Treating flue gases to remove pollutants; Carbon capture and storage
- Capturing and processing CO₂ from combustion processes to beneficial products
- Pre-combustion capture; Post-combustion capture; Oxy-fuel combustion
- Other captures and processing methods and technologies
- Develop/use carbon-free but economically viable new technologies
